

**Durable, Practical  
Protection and Appearance**

# Optimize the appearance and extend the life of your floors

Use the 3M™ Resilient Floor Protection System to keep linoleum, vinyl tile, and sheet vinyl floors looking their best with *less maintenance and fewer chemicals.\**

# The difference in protection is visible

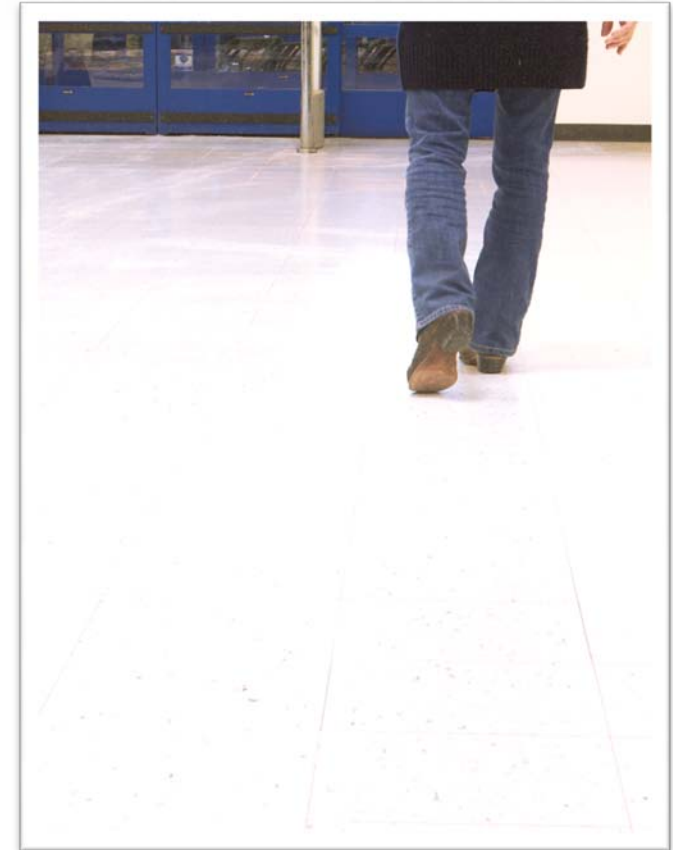

Multiple layers of  
traditional floor finish  
Dirty looking and yellowed

Just two coats of  
Scotchgard™ Resilient Floor Protector  
Clean looking and brighter

Developed by 3M floor care innovators, the 3M™ Resilient Floor Protection System is scientifically designed to:

- Provide tough, long-lasting protection that stands up to heavy traffic in just two coats
- Improve productivity and reduce operational costs
- Provide an environmentally preferable solution that uses fewer coats and lessens the need for stripping chemicals

# Ultimate protection

Scotchgard™ Resilient Floor Protector is not a floor finish, but a proprietary, low odor, hybrid formulation to protect and enhance your floor's appearance.

- Clean, bright appearance with only two coats
- Non-yellowing when applied as recommended
- High water and salt resistance to help protect your floor in even the most challenging environments
- Develops initial hardness 40% faster than traditional floor finish to reduce risk of early damage
- COF exceeds minimum 0.5 by ASTM D2047

## Make stripping a thing of the past

Traditional floor finish can quickly become dull and dirty, requiring regular stripping and refinishing. Just two coats of Scotchgard™ Resilient Floor Protector provide lasting protection that is twice as resistant to abrasion than traditional floor finish.\*

- Helps prevent the need for stripping
- Resists stains, scuffs and black marks
- Helps reduce labor and exposure to potentially hazardous chemicals
- Able to spot repair and self leveling for easy application
- Low odor

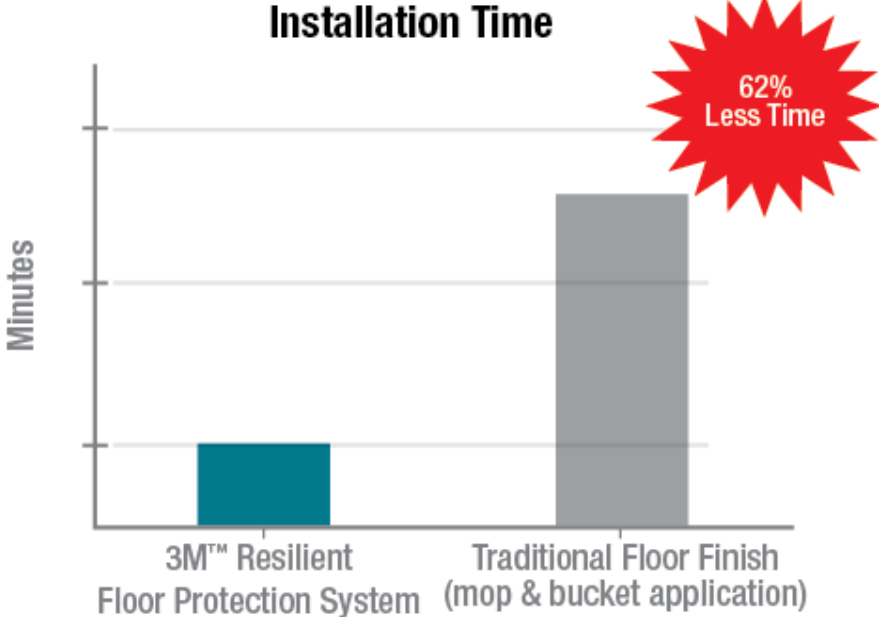

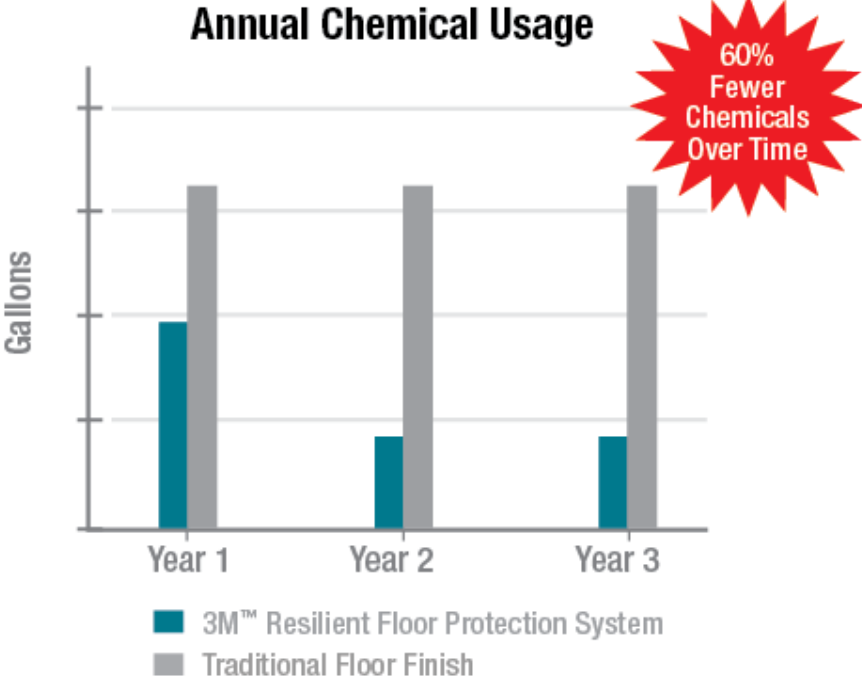

## A complete floor care system

Maintain the beauty of your floors with 3M™ Neutral Cleaner and occasional burnishing with the long-lasting 3M™ TopLine Speed Burnish Pad 3200.

- Leave floors bright and clean without soapy residue that can dull floor finish
- Use 3M™ TopLine Speed Burnish Pad 3200 to produce a brilliant gloss while quickly removing scuffs and black marks

# Less maintenance, fewer chemicals

# Maintenance key part to any floor care program

## Daily Cleaning

**STEP 1.** Dust mop with 3M™ Easy Trap Duster.

**STEP 2.** Damp mop or autoscrub with the 3M™ Red Buffer Pad 5100 using 3M™ Neutral Cleaner.

To ensure proper slip resistance, flooring should be cleaned regularly to keep dust, sand, oils and other contaminants off the surface.

DO NOT use acidic cleaners, cleaners that contain citrus (d-limonene), 2-butoxyethanol (butyl cellosolve), amine based cleaners, isopropyl alcohol, solvent based cleaners, degreasers or non-neutral cleaners.

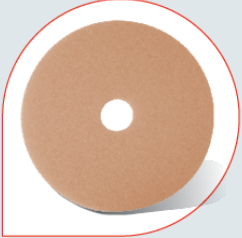

DO NOT use spray buff products or chemical dust mop treatments.

**STEP 3.** For a deep cleaning prior to burnishing, the 3M™ TopLine Autoscrubber Pad 5000 is optimal.

## Burnishing & Recoating Schedule\*

	Low Traffic Areas	Medium Traffic Areas	High Traffic Areas
<p>Burnish the floor with 3M™ Topline Speed Burnish Pad 3200.</p> 	<b>1-2x month</b>	<b>4-5x month</b>	<b>3-4x week</b>
<p>Recoat floors using one coat of Scotchgard™ Resilient Floor Protector.</p> 	<b>1-2x year</b>	<b>2-3x year</b>	<b>3+x year</b>

Fewer chemicals when compared to traditional floor finishes and typical floor maintenance operations.  
 \*Minimum recommendation for optimum appearance.

### Questions?

For more information on periodic maintenance, including repairs for etch damage or excessive wear, please refer to additional technical files.
